Field Intelligence Portal

"Field intelligence for every farmer"

Launch & Training Session

31 July 2026

One portal for the whole field team

From a single farmer visit to organisation-wide campaigns, it all lives in one place.

Farmer 360

Every farmer's profile, segment & sales at a glance.

Field Visits

Log visits with photos, voice notes & follow-ups.

Segments & Analytics

Value tiers, lifecycle & drill-down insights.

Map & Clusters

See farmers on the map and save target groups.

Campaigns

Plan, run & measure outreach (test vs control).

Users & Admin

Roles, stores, sales imports & bug tracking.

Two ways we categorise every farmer

Value segment = how much they spend. Lifecycle = how recently they buy.

VALUE SEGMENT

by all-time base (pre-tax) spend

-  **HNI**
₹12,000 and above
-  **Potential HNI**
₹8,000 to ₹11,999
-  **Regular**
Below ₹8,000

LIFECYCLE

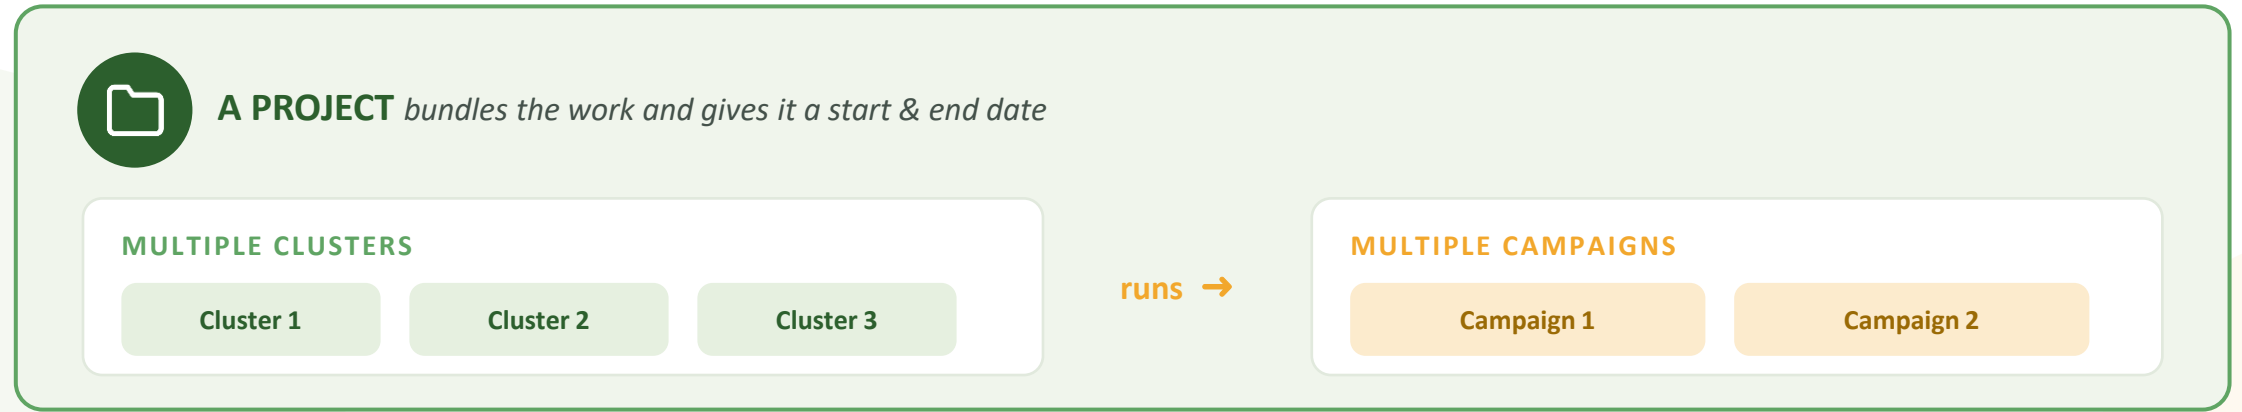

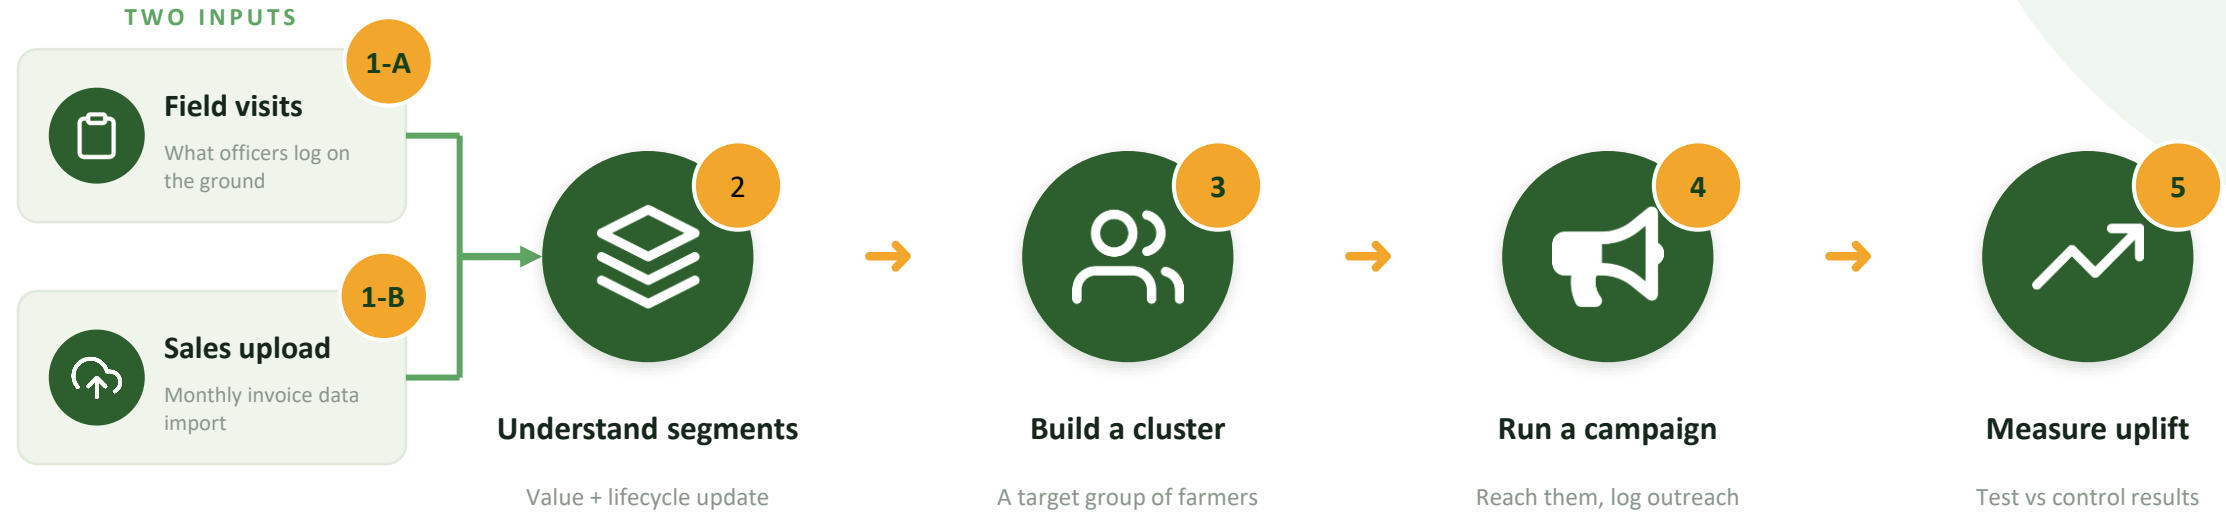

by how recently they last bought

-  **New**
First purchase in the last 6 months (brand new)
-  **Recent**
Bought in the last 6 months and earlier too
-  **At Risk**
Last bought 6 to 12 months ago
-  **Lapsed**
Last bought 12+ months ago, or never

LTV = a farmer's total spend on base (pre-tax) price. Every number in the portal uses base price, never the GST-inclusive amount.

How it all connects

Two data sources feed the segments, then one loop turns insight into action.

Who can do what

Each role sees only the pages it needs. System Admin sees everything.

Agri Officer

THEIR STORE

- New Visit:** record field visits
- Farmer 360:** view their store's farmers
- Visit Repo:** their store's visits
- Analytics:** their store's numbers
- Campaigns:** only their farmers to contact

Regional Manager

THEIR DISTRICT

- All the Officer can, district-wide
- Map & Clusters:** view only, cannot edit
- Products & Stock:** view
- Analytics:** full district view
- Campaigns:** district farmers to contact

Central Admin

WHOLE ORGANISATION

- Analytics:** full org view + export
- Projects & Campaigns:** create & manage
- Comm Plan & Tracker:** set up & measure results
- Clusters:** build target audiences
- Users & Stores:** manage

System Admin

FULL ACCESS

- Everything Central can, plus:
- Sales Import:** upload monthly data
- Settings & Audit:** configure & review
- Bug Tracker:** triage reports
- All pages:** nothing is hidden

On the Campaigns page: Officers and Regional Managers see only their farmers to contact. The Comm Plan, campaign setup, and results tracker are for Central and Admin.

Now, let's see it live

We'll walk through the portal together in a live demo.
